CAREER OBJECTIVE

Detail-Oriented Artificial Intelligence And Data Science student with practical experience in Python, SQL, Excel, Power BI, Pandas and Machine learning through internships and projects. Seeking a Data Analyst position to apply data-driven problem-solving skills and Contribute to business decision-making.

EDUCATION

B. Tech in Artificial Intelligence and Data Science	CGPA:7.63
St. Martin's Engineering College, Hyderabad 2023 – 2027	
Intermediate (MPC)	Percentage:90.9%
Alphores Junior College, Board of Intermediate Education, Karimnagar 2021 – 2023	
SSC (10th Class)	Percentage:100%
Jyothi High School, Board of Secondary Education, Jagtial 2020 – 2021	

TECHNICAL SKILLS

- **Languages:** Python, SQL
- **Database:** MySQL
- **Data Analysis:** Excel, Pandas, Numpy
- **Visualization:** Matplotlib, Power BI
- **Tools:** VS code, Jupyter Notebook, Git, GitHub
- **Concepts:** DBMS, DSA, OOP

PROJECTS

AI Data Analyst Assistant
• Developed an AI-powered data analytics application using Python, Streamlit, Pandas, Plotly, and Google Gemini AI. • Enabled interactive dashboards, automated insights, and natural language querying for CSV datasets. • Deployed the application on Streamlit Cloud.
Restaurant Data Analysis
• Performed exploratory data analysis on restaurant datasets using Python and Pandas. • Built visualizations to identify customer preferences, ratings, and business insights.
Sales Forecasting Using Machine Learning
• Built a machine learning model to forecast future sales trends. • Performed data preprocessing, feature selection, and model evaluation.

Portfolio Projects: [GitHub Profile](#)

EXPERIENCE

Cognifyz Technologies	Nov 2025 – Dec 2025
Data Analysis Intern (2 months)	
• Completed a Data Analytics internship working on real-world datasets. • Gained hands-on experience in data cleaning, EDA, and visualization.	
Acmegrade	June 2025 - Aug 2025
Data science Internship (3 months)	
• Worked on data preprocessing, exploratory data analysis (EDA), and machine learning concepts using Python. • Developed and evaluated predictive models using libraries such as Pandas, NumPy, and Scikit-learn as part of internship projects.	

CERTIFICATIONS

• Learning Data Analytics - LinkedIn	Sept 2025
• Python for Data science - IBM	June 2025
• Data Science Training – Acmegrade	June 2025
• Career Essentials in Generative AI by Microsoft and LinkedIn	Jan 2025
